The 1990-91 Annual Report of the Utah State Tax Commission summarizes the revenue collections during the fiscal year and recaps significant tax legislation.

The Utah Constitution charges the four gubernatorially appointed tax commissioners with the responsibility of administering and supervising the tax laws of the state, assessing mines and public utilities and overseeing the assessment and equalization of property taxes among the counties.

The Tax Commission is also responsible for the registration of cars, trucks and vessels through its Motor Vehicle Division and regulation of the automobile industry through its Motor Vehicle Enforcement Division.

Fiscal Year 1990-91 was a time of great change in the area of property tax, and the Tax Commission worked intensively with legislators to respond to a July 1990 Utah Supreme Court decision in *Amax Magnesium Corporation v. Utah State Tax Commission*.

The AMAX decision called into question the validity of the way in which the state values centrally assessed property versus locally assessed property.

This issue was addressed in the 1991 Utah Legislature through House Bill 397, which, in effect, required a major tax shift among classes of property. After much discussion and compromise, lawmakers agreed upon a two-year phase-in of changes.

At the heart of House Bill 397 was the phase-out of the automatic 20 percent "intangibles" exemption -- the focus of the AMAX lawsuit. The "intangibles" exemption had been given to locally assessed real property, but not centrally assessed property. Primary features of HB397 are:

- The automatic 20 percent "intangibles" exemption was eliminated. Assessors were allowed, until 1993, to give locally assessed real property a 5 percent exemption for intangible value. (The bill

requires the Legislature and the Tax Commission to study intangible value by January 1, 1993. If no action is taken by the 1993 Legislature, the intangible deduction will be eliminated effective January 1, 1994.)

- The residential exemption was increased in 1991, then scaled back slightly for 1992 to ensure residential property tax collections statewide would remain level.
- Establishment of a 1.7 percent statewide fee-in-lieu of property taxes on all property required to be registered in Utah (cars, trucks, etc.).

The Tax Commission also worked closely with tax attorneys from the Utah Attorney General's office, developing legal defenses in the \$100 million class-action lawsuit filed by the state's military and federal civil service retirees. The suit was a response to the 1989 U.S. Supreme Court decision in *Davis v. Michigan Department of Treasury*, which forbade Michigan, Utah and 21 other states from differentially taxing the pensions of state public service and federal retirees.

It is our hope that the information contained in this report will assist the Governor, legislators and policymakers as they plan to meet the state's future needs.

Serving Utah taxpayers in a professional and effective manner has been and will continue to be a long-term goal for the Tax Commission.

The Tax Commission during Fiscal Year 1990-91 looked to its customers -- the taxpayers -- to improve its service. Surveys were employed in several of divisions to identify areas for improvement as well as to determine where staff is performing in an outstanding manner. Surveys completed in the Heber Wells Building as well as at our Motor Vehicle offices have been positive and indicated few problems. The Auditing and Property Tax divisions have also employed customer service questionnaires to help them improve their services.

The Tax Commission has been innovative in employing new technology to increase the agency's effectiveness. The Collection Division created an "office-in-the-car" program using mobile telephones that allow our collectors to make calls and schedule appointments while on the road. The program also has reduced the office space allocated to collectors.

Our Operations Division, working in conjunction with the Data Processing Division, has created a state-of-the-art electronic imaging and microfilm scanning and information retrieval system that is being studied by many large state agencies and private companies.

Working cooperatively with other governmental and private entities is an agency priority. The Utah State Tax Com-

mission continues to be one of the leaders in the nation in fostering cooperative federal-state efforts with the Internal Revenue Service. Also along this line, communications between the Tax Commission and county and local governments and professional associations continue to expand.

The Property Tax Division provides annual training to county assessors statewide and in 1991 helped counties plan their implementation of the complex new AMAX legislation. Staff also assisted property appraisers statewide as they scrambled to meet a new professional licensing deadline.

The Auditing Division's oil and gas auditors received national attention for their auditing program that ensures the state receives appropriate royalties from oil and gas development on federal lands.

All of our customers, whether individuals, businesses, associations or government entities, will continue to be the focal point of our efforts to improve service. We are grateful for their help in achieving our goals.

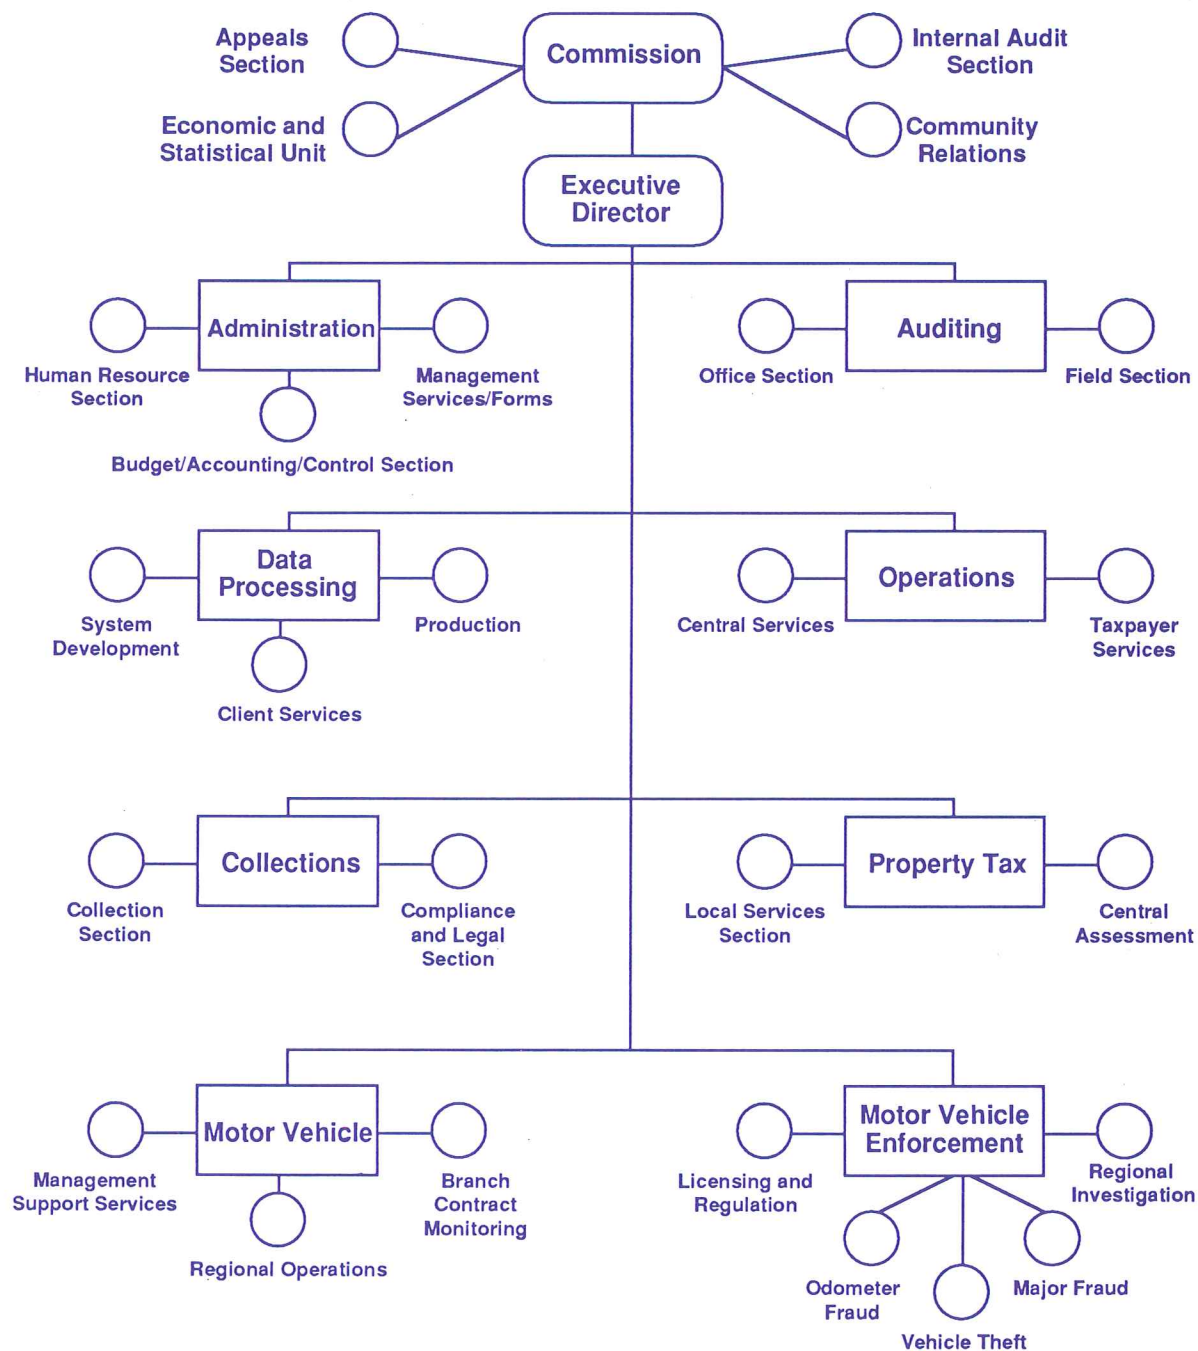

Clyde R. Nichols, Jr.  
Executive Director

## Property Tax

Property taxes are levied at the local level, based on valuations established by elected county assessors and, in the case of certain properties, by the State Tax Commission's Property Tax Division. The amount of taxes paid is based upon the tax rate applied against the taxable value of the property.

Tax rates are set by local entities such as counties, cities and towns, school districts and special taxing districts.

In this process, the Property Tax Division has two major functions:

- assuring appropriate local assessment of real property through training of elected county assessors and monitoring the ratio of assessments to actual property values.
- assessment of natural resources property and large companies with multistate or multicounty operations.

This section demonstrates the proportions of property tax collections from various types of properties. The respective property tax burdens of the various counties and the ratios of assessments to actual market value of properties on a county-by-county basis are also illustrated.

## STATEWIDE TAXABLE VALUE AND TAXES CHARGED FOR ALL UTAH PROPERTY BY TYPE FOR 1990

### Centrally Assessed Property

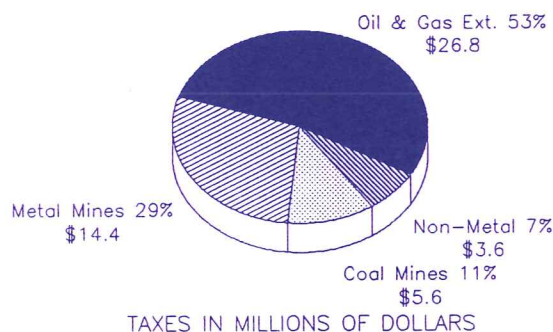

The Property Tax Division is responsible for the valuation of mines, utilities, airlines and motor and rail carriers. The market value of multistate utilities is determined by the "unit value" approach, which values the entire operation as a unit, then allocates the value to the state and then to the counties.

Property of mining operations, as well as gas and oil companies, are physically valued to arrive at fair market value. In addition, mines are assessed on capitalized net income; oil and gas wells on "value at the well." Patented mining claims are valued at the fair market value of the surface property.

## Locally Assessed Property

In the late 1970s, the ratio of assessment to actual market value of property was disproportional on a statewide basis. The Tax Commission is required by the Legislature to assure that assessments and market values do not vary beyond certain tolerances. To assure those ratios are maintained, the Property Tax Division has conducted an annual assessment/sales ratio study since 1981 to monitor intercounty equity.

The Property Tax Division is also responsible for the training, assistance and general supervision of county assessors and other local property tax administrators.

The division ensures accurate and equitable assessment of real and personal property by:

- conducting the annual assessment/sales ratio study
- auditing personal property on an ongoing basis
- auditing land assessed under the Farmland Assessment Act for property classification and compliance with legal eligibility requirements
- annually auditing tax rates set each year by the more than 550 separate taxing entities in the state
- conducting appraisal certification programs for county assessors and their appraisal staffs. The education program includes regional workshops and an annual assessor's school.
- training county auditors and local administrators in conjunction with the implementation of "Truth in Taxation" laws.

The accompanying charts demonstrate how assessment levels have become more uniform over time.

## Tax Rate

Historic State Sales and Use Tax rates are 4 percent (April 12, 1969); 4  $\frac{1}{8}$  percent (July 1, 1983 - September 30, 1983); 4  $\frac{5}{8}$  percent (October 1, 1983 - June 30, 1986); 4  $\frac{38}{64}$  percent (July 1, 1986 - March 31, 1987); 5  $\frac{3}{32}$  percent (April 1, 1987 - December 31, 1989); and 5 percent thereafter.

The same rates apply to retail sales of meals, admissions to places of amusement, intra-state communication and passenger service, commercial electric, gas, and heat utility service, hotel and motel accommodations and certain other services; there are exemption provisions; retailer licenses are issued without fee.

Charges for residential use of electricity and fuel are taxed at a rate 3 percent less than the foregoing.

Use Tax is charged at the same rates as above on tangible personal property that is purchased for use, consumption or storage in Utah. This includes rentals in lieu of purchase, services or repair, renovation, and certain installations of tangible personal property.

**Sales:** Retailers are liable for the collection of the tax. Purchasers are liable for the tax on vehicles bought from other than a licensed dealer, payable when they register the vehicle.

**Use:** Licensed vendors are liable for the collection of the tax. Purchasers are liable if they are not taxed by the vendor. Use tax for individuals is computed and paid using the Utah Individual Income Tax return form.

## Disposition of Revenue

### General Fund

January 1, 1990 through December 31, 1999,  $\frac{1}{64}$  of 1 percent the 5 percent State Sales Tax is earmarked for the Olympics Special Revenue Fund, for use by the Utah Sports Authority. Those funds are not included in these collection totals. Please see Overview of Collections for these collection totals.

## Shares of Utah's Sales Tax Base Four Major Sectors (In Million \$)

## Tax Rate

The following rates are effective for taxable years beginning on or after January 1, 1989, by action of the 1989 Special Session of the Utah State Legislature:

### For Single Taxpayer (except Head of Household) and for Married Filing Separate Returns:

#### If State Taxable Income is:

Not over \$750  
Over \$750, but less than \$1,500  
Over \$1,500, but not over \$2,250  
Over \$2,250, but not over \$3,000  
Over \$3,000, but not over \$3,750  
Over \$3,750

#### The Tax is:

2.55 percent of state taxable income  
\$19, plus 3.5 percent of excess over \$750  
\$45.25, plus 4.4 percent of excess over \$1,500  
\$78.25, plus 5.35 percent of excess over \$2,250  
\$118.50 plus 6.25 percent of excess over \$3,000  
\$165.50 plus 7.2 percent of excess over \$3,750

### For Married Filing Joint Return and Head of Household:

#### If State Taxable Income is:

Not over \$1,500  
Over \$1,500, but less than \$3,000  
Over \$3,000, but not over \$4,500  
Over \$4,500, but not over \$6,000  
Over \$6,000, but not over \$7,500  
Over \$7,500

#### The Tax is:

2.55 percent of state taxable income  
\$38.25, plus 3.5 percent of excess over \$1,500  
\$90.75, plus 4.4 percent of excess over \$3,000  
\$156.75, plus 5.35 percent of excess over \$4,500  
\$237 plus 6.25 percent of excess over \$6,000  
\$330.75 plus 7.2 percent of excess over \$7,500

## Applicable to:

All residents and fiduciaries are required to file returns under federal rules, as well as nonresidents or part-year residents having income from Utah sources. Employers are liable for withholding employee wages per schedules distributed by the State Tax Commission. Quarterly withholding returns are required unless withholding averages more than \$1,000 per month, then monthly returns are required.

### Tax Rate

The Local Sales and Use Tax must be adopted by local ordinance and is 1 percent (effective January 1, 1990) of the purchase price on the same transactions as the state sales and use tax. Retailers are liable for the tax collection. The Tax Commission acts as agent for local governmental units.

Historically, this tax was  $\frac{1}{2}$  of 1 percent (July 1, 1959 - June 30, 1975);  $\frac{3}{4}$  of 1 percent (July 1, 1975 - June 30, 1983);  $\frac{7}{8}$  of 1 percent (July 1, 1983 to June 30, 1986);  $\frac{29}{32}$  of 1 percent (July 1, 1986 to December 31, 1989).

As of January 1, 1990, only three municipalities have continued to tax sales at  $\frac{3}{4}$  of 1 percent: Altamont, Lynndyl, and Kingston. The remaining 250 cities, towns, and counties apply a local sales tax of 1 percent.

Local Sales and Use Tax  
Fiscal Years 1982-1991

### Disposition of Revenue

Revenue is returned to participating local government units. For calendar year 1989, 75 percent of local sales taxes were returned on the point-of-sales basis, while 25 percent was distributed on a prorated population basis, with the exception of three cities: Altamont, Lynndyl, and Kingston. Under Utah statute that distribution changed to 65 percent-35 percent on January 1, 1990 and remains so through June 30, 1991.

January 1, 1990 through December 31, 1999,  $\frac{1}{64}$  of the 1 percent Local Sales Tax is earmarked for the Olympics Special Revenue Fund, for use by the Utah Sports Authority. Those funds are not included in these collection totals. Please see Overview of Collections for these collection totals.

## Tax Rate

The Motor Fuel Tax is 19 cents per gallon (effective April 1, 1987); government exemption or refund of tax on all governmental purchases; \$30 one-time license fee for distributors; 2 percent evaporation allowance; refunds for off-highway agricultural use.

Importers, refiners and distributors are liable to report this tax. Refunds for off-highway agricultural use can be claimed as a credit on Utah Individual Income or Corporation Franchise tax returns.

## Disposition

### Transportation Fund and General Fund

All of the 1987 5-cent-per-gallon tax increase is to be used for the repair of highways, roads and streets. The Off-highway Vehicle Account of the General Fund, is to receive annually, effective April 29, 1991, the lesser of .5 percent of the Motor Fuel Tax revenues, or \$600,000. After appropriations to certain state government departments, the revenue is distributed 75 percent to the State Department of Transportation and 25 percent to city and county Class B and Class C road funds. The estimated amount of tax collected on gasoline used in motorboats is transferred annually from the Transportation Fund to the Boating Account of the Division of Parks and Recreation budget in the General Fund for improving state-owned boating facilities.

## Tax Rate

The Corporate Franchise and Income Tax rate is currently 5 percent of net income allocated to Utah for tax years beginning on or after January 1, 1984, with a \$100 minimum tax. In 1983, the tax was 4.65 percent, with a \$50 minimum. For all years prior to 1983, including fiscal years, the rate was 4 percent with a minimum of \$25.

This tax is applicable to all corporations having income allocable to Utah or exercising corporate franchise in the state. The tax is prepaid for the privilege of doing business in Utah if incorporated or qualified prior to January 1, 1973. Corporations are taxed on a current earnings basis if incorporated or qualified on or after January 1, 1973.

# Tax Rate

The Special Fuel Tax is 19 cents per gallon (effective April 1, 1987) for fuel other than gasoline used in the operation and propulsion of motor vehicles on Utah highways; governmental exemption; \$20 entrance permit required for nonpermitted vehicles; operators are licensed without a fee; dealers are licensed for \$30. An exemption certificate for vehicles powered by exotic fuels (such as propane, hydrogen, electricity, compressed natural gas) may be purchased. The exemption certificates cost \$36 for vehicles under 33,000 pounds registered gross laden weight and \$70 for vehicles 33,000 pounds or more registered gross laden weight.

Dealers are required to collect the tax on fuel placed in vehicle service tanks. Licensed users pay their tax on a use basis and claim credit for any tax paid at the point of sale. Returns are required of all users and user-dealers; however, users generally are not required to report fuel use on vehicles with a registered gross laden weight of less than 26,001 pounds unless they have bulk storage facilities.

Effective January 1, 1990, Utah became a member of the International Fuel Tax Agreement. The agreement is designed to simplify interstate fuel tax reporting for motor carriers.

## Tax Rate

The 1/4 of 1 percent Public Transit Tax applies to the purchase price on transactions under the state's sales and use tax laws. This tax, however, applies only in localities where voters have approved the tax to finance local bus service. Retailers and purchasers are liable under the same conditions as applicable for sales and use tax. The Tax Commission acts as agent for the participating localities.

## Disposition of Revenue

Returned to participating county or city as applicable.

## Tax Rate

The Insurance Premium Tax is 2.25 percent of net premiums on property and risks located in Utah; 7 percent of workmen's compensation insurance premiums (6.75 percent of government agency workmen's compensation insurance premiums); .45 percent of title insurance premiums; and, effective January 1, 1989, 2.2675 percent of motor vehicle insurance premiums for motor vehicle liability, uninsured motorist and personal injury protection. All rates are subject to retaliatory provisions.

The workmen's compensation insurance premium rate may be set between 1 and 8 percent; the rate set for Fiscal Year 1990-91 by the Industrial Commission was 7 percent.

This tax is applicable to all admitted insurers on total premiums received from insurance covering property or risks located in Utah.

## Tax Rate

The 4 percent Oil and Gas Severance Tax is based on the value at the well of oil and gas production. In addition to a \$50,000 annual exemption, the following are exempt from the tax:

- royalties paid on production from federal, state and Indian lands
- wells started after January 1, 1990; the first 12 months of production by wild-cat wells or the first six months of production for development wells
- stripper wells that produce less than an average of 20 barrels of oil per day for a 12-month period, or an average of less than 60,000 cubic feet of gas per day for a 90-day period

In addition, Utah provides a 20 percent tax credit for a workover or recompletion of a well. The tax credit may not exceed \$50,000 per well.

The tax is applicable to the extractors of oil, gas and other hydrocarbonic substances.

## Disposition of Revenue

General Fund

**Note:** Prior to 1988, this tax was known as the Mine Occupation Tax. The 1988 General Session of the Utah Legislature separated this tax into two separate taxes and changed the name.

## Tax Rate

The Cigarette Tax was 23 cents per pack-  
age of 20 cigarettes (1.15 cents per  
cigarette), effective April 27, 1987 and  
26.5 cents per package of 20 cigarettes  
(1.325 cents per cigarette), effective July  
1, 1991; \$30 license for retailers and  
dealers.

Tobacco products other than cigarettes  
are taxed at the rate of 35 percent of  
manufacturers' sale price delivered to  
Utah. Prior to July 1, 1986, the tax was 25  
percent. Quarterly returns are required of  
dealers who are liable for payment of tax  
on other tobacco products.

The Cigarette Tax is applicable to  
wholesalers and distributors who pur-  
chase stamps or use cigarette stamping  
machines for payment of the tax. There is  
a 4 percent discount on stamp purchases  
in excess of \$25.

## Tax Rate

The Transient Room Tax is applied to the rental charge for any suite, room, or rooms in a motel, hotel, motor court, inn, or similar public accommodation for fewer than 30 consecutive days. This tax is in addition to the applicable sales tax. The Tax Commission acts as agent for the counties, but 1990 legislation allows counties to elect to collect the tax themselves.

The tax rate is levied up to 3 percent of the rental charge as fixed by county ordinance. As of June 30, 1987, rates are 1 1/2 percent in San Juan and Tooele counties and 3 percent in all other counties.

## Disposition of Revenue

The tax is distributed to the 29 respective Utah counties.

## Tax Rate

The Beer Tax is \$11 (effective July 1, 1983, previously \$4.12) per 31-gallon barrel of beer; bottled and canned beer converted to barrel equivalents on returns. Distributor licensing is under the jurisdiction of the Department of Alcoholic Beverage Control. Retail licenses are issued by local jurisdictions.

This tax applies to all beer imported or manufactured for sale, use, or distribution in Utah. Monthly reports are required of every brewer, wholesaler, or distributor manufacturing or importing beer.

## Tax Rate

The Mining Severance Tax is 2.6 percent of the taxable value of products of metal-liferous mines and metalliferous claims. The rate was increased from 1 percent as of January 1, 1988, but the tax base was reduced to collect approximately the same amount of revenue. There is a \$50,000 annual exemption.

The taxable value differs according to the type of mineral

- 1) Beryllium: taxable value equals 20 percent of gross proceeds
- 2) All other minerals: taxable value equals 30 percent of gross proceeds
- 3) All metalliferous minerals shipped out of state in the form of ore: taxable value equals 80 percent of gross proceeds

This is applicable to the extractors of gold, silver, copper, lead, iron, zinc, tungsten, uranium, vanadium, and other metalliferous minerals.

## Disposition of Revenue

**Note:** Prior to 1988, this tax was known as the Mine Occupation Tax and included oil and gas as well as nonfuel minerals in a single tax. The 1988 General Session of the State Legislature separated this tax into two separate taxes and changed the name.

## Fees

## Fee

71

Annual registration fees and highway use fees are computed for the Proportional Registration Fee according to the applicant's prorate percentage. The prorate percentage is a fraction: the numerator is an amount equal to the fleet mileage traveled in Utah and the denominator is the total miles operated by the fleet in all jurisdictions. The cab card fee for tractors and trailers is \$3.

Any resident or nonresident may proportionally register and license each fleet for operation in Utah. A "fleet" consists of one or more commercial vehicles which supply motive power and contain a compartment for the driver, as well as not less than 10 commercial vehicles which are trailers or semitrailers. Vehicles which exclusively travel in Utah are not included in any application for proportional registration.

## Tax Rate

The Gross Receipts Tax is an in-lieu tax imposed on the gross receipts of corporations, other than eleemosynary, religious or charitable institutions, operating in the State of Utah, that are not otherwise required to pay income or franchise taxes to the state or to declare dividends.

The tax is imposed as follows: on gross annual receipts not in excess of \$10 million, none; receipts in excess of \$10 million but not in excess of \$500 million, 0.625 percent; in excess of 500 million but not in excess of \$1 billion, 0.9375 percent; in excess of \$1 billion, 1.25 percent.

The above tax rates are increased or decreased by the Tax Commission in direct proportion to changes in the Corporation Franchise Tax rate.

## Tax Rate

Vehicles not based in the State of Utah, not required to pay county property tax and which apply for proportional registration shall pay a proportional part of an equalized highway use tax.

The Highway Use Tax is computed as follows:

1. Multiply the number of vehicles or combination of vehicles registered in each weight class by the equivalent tax figure from the following table:

### Vehicle or Combination

Registered Weight	Equivalent Tax
6,000 - 18,000 lbs.	\$100
18,001 - 33,000 lbs.	\$200
33,001 - 48,000 lbs.	\$300
48,001 - 63,000 lbs.	\$450
63,001 lbs. and more	\$600

2. Multiply the value for the total fleet determined above by the fraction computed for proportional registration of the applicant's fleet for the registration year.

Municipalities whose transient room capacity equals or exceeds their permanent population have the option of adding up to 1 percent of the purchase price on retail transactions subject to the state sales tax. Currently, this Resort Communities Sales Tax option has been adopted by Alta, Park City, Brianhead and Springdale at 1 percent. In addition to exemptions provided under the state sales tax law, there are exemptions for single-item sales exceeding \$2,500 and for certain wholesale sales as defined by local ordinance.

## Disposition of Revenue

Revenues are distributed to the participating communities. The Tax Commission acts as agent for the communities.

### HB 438 - Convention, Tourism, Cultural, and Recreation, and Facilities Operation Funding (*Rob W. Bishop*)

Allows counties to impose an additional tourism, recreation, cultural, and convention facility tax consisting of a 1% statewide restaurant tax on food prepared by restaurants for immediate consumption. The revenues are to be used for the purposes of financing, developing, operating, and maintaining tourism, recreation, cultural, and convention facilities and tourism promotion. It also allows counties of the first class to impose an additional 1- 2% transient room tax on hotel rooms to be used only for tourism promotion.

Amends 59-12-601, 59-12-602, 59-12-603

Effective July 1, 1991

### HB 43 - Aircraft Parts and Equipment Exemption (*John L. Valentine*)

Broadens the sales tax exemption for parts and equipment installed in aircraft to include all aircraft operated by common carriers in interstate or foreign commerce.

Amends 59-12-104

Effective July 1, 1991

## Income Tax

### HB 182 - Revenue and Taxation Technical Amendments (*Gale E. Voigt*)

Increases the amount of tax that must accompany an extension for filing request from 80% to 90% of the tax reported on the return and clarifies the payment of tax accompanying a request for extension of time to pay income tax.

Amends 59-1-401, 59-7-123, 59-7-126, 59-10-516, 59-12-603; Repeals 59-7-144

## Property Tax

### SB 145 - Income Level for Veteran's Exemption (*Dixie L. Leavitt*)

Increases the income eligibility ceiling of the property tax exemption for veterans from \$24,000 to \$30,000.

Amends 59-2-1105

Effective April 29, 1991

### HB 104 - Tax Abatement and Deferral Amendments (*Gene Davis*)

Raises the income eligibility ceiling for tax abatement and deferral programs to match those of the state's circuit breaker program.

Amends 59-2-1109

Effective March 16, 1991

### HB 3 - Property Tax Payment Amendments (*Gene Davis*)

Amends the time and procedure for collecting property taxes.

Amends 59-2-1331, 59-2-1332.5

Effective April 29, 1991

### HB 397 - Property Tax - Assessment Amendments (*John L. Valentine*)

Makes adjustments as a result of the Amax court case. The bill amends state and county assessment practices to allow a 5% reduction in value for intangibles, adjusts the homeowner's exemption, establishes a 1992 statewide uniform tax on cars and other registered personal property, and puts a one year restriction on certain levies. The bill also provides for a study of the state's property assessment practices.
